The Rexall Store

ONE CENT SALE!

Thursday, Friday and Saturday, THIS WEEK

During these three days we will sell the following merchandise in this manner: The first article at the regular price, then another item of the same kind for one cent. We could not afford to do this except for advertising purposes. If the goods you buy please you, you will come again. This is our method of getting you acquainted with the merits of the goods we sell, and the loss on goods will be well spent. The sale was developed by the United Drug Co., and is being used by the Rexall Stores everywhere.

DALY'S THEATRE

This week's program at Daly's Theatre, Wednesday, Mary Wash in The Unbroken Road, a wonderful 5 part feature. Thursday night, Uncle Tom's Cabin. Friday night at Piche Picture program featuring J. Rufus Wallingford, Gen. Rich Quick, the best of the best. Saturday and Sunday the Sporting Duchess, featuring Rose Coghlan, a five reel feature.

This life is not all buckwheat cakes and honey and the longer you live the more you are convinced that you came into and out of this world by no consent of your own. In childhood when you don't know enough to point and in a hot hole you live your hamper at days. Then as the years roll along and you give your knee pants to your younger brother and get inside of the kind that Dad wears, with pockets for and aft, as the time your worldly troubles begin. You are the coming man and to learn the duties of the American citizen you have to spit wood, pick potato bugs and turn the grind stone. The years go swiftly by and as you go from one to the other you live good by to your rattle box days for those of a razor and fancy togs. Your sister may be the prettiest girl in town, but it is not her brown eyes and loving voice that keeps your banker going day and night. It's some one else and there is competition even in your first love affair. You reach the days of manhood on a sort of a down hill haul but here is where you begin to find the sand hills that are hard to mount and the metal of your energy is put to test. Life is a continual round of pleasure and displeasure. You get up in the morning with every inner tube in working order only to have a punctured tire, as it were, before the shadows of evening give warning of approaching night. Man born of woman is of few days and full of trouble.—Marshall Herald.

State Tax Reduced.

According to figures furnished right from the seat of war down at Madison, the 1915 state tax will not be as large as that of 1914. The coming state tax from Wood county will be \$46,883.50, while in 1914 the levy was \$51,978.38. The amount is still out of proportion to what the county should pay, and the amount will have to be reduced considerably more before it will look good to the average taxpayer.

MEEHAN BOY HAS ACCIDENT WITH DYNAMITE CAP

Stevens Point Journal.—Last Saturday evening at about 5 o'clock Frank, the seven year old son of Mr. and Mrs. Frank Wolk, who live near Meehan, in the town of Plover, met with a severe accident.

In some way the boy came in possession of a dynamite cap, and lighting a match he inserted it in the cap. The inevitable result followed. The cap exploded, shattering the fingers on his left hand and his left eye was severely injured that he will lose the sight of it.

The Wolk family consist of this father and mother and seven children, the latter ranging in age from 18 months to 16 years. Last Saturday Mr. and Mrs. Wolk went to Rosch to attend the wedding of the latter's brother, leaving the children at home and expecting to return on Wednesday of this week.

The other children did not realize the seriousness of the accident and had believed the little boy and did not let anyone outside the family know about it until late Sunday night. Then D. S. Parks was notified and Dr. Waite of Plover called. The doctor found the three fingers were torn to shreds and that the left eye was seriously injured.

The boy was brought to St. Michael's hospital today. Three of the fingers are so badly injured that they will be saved, but there is no hope that the sight in it can be restored.

NEWS NOTES FROM NEARBY PLACES

Plainfield Sun.—The T. H. Cochran Co. purchased one load of Clover seed this week for which they paid \$275.89. This seed was grown on 25 acres of ground on the Prochown farm, after 60 tons of hay had been taken off the place. Talk about Wisconsin farming! Where could a man do better?

A singular feature of the accident last Sunday near Unity, when four Marshfield men were killed, says the Marshfield News, was the fact that the accident occurred in Clark County and the bodies of the victims were buried into Marathon county. The railroad line runs close to the dividing line of those two counties at that place for some distance.

In Waupaca circuit court last week Fred McGregor and Lloyd Gaffney, who took a car belonging to another party and accidentally ran it into the mill race at Wauwage, pleaded guilty and were sentenced to two years in the state prison at Waupun. They will probably be placed on probation.

The four other defendants in the automobile mix-up paid the cost of litigation in justice and circuit courts, ranging from \$28.75 to \$42.17, and the cases were dismissed.

Needahs Republican.—George N. Wood, Tony Peterson and Roy Wood, of Grand Rapids, who constitute a party which reached Needahs Saturday evening. They were simply equipped with camping supplies, and intended to make VanKuren's Lake the scene of their endeavors the following day with the purpose of hooking a few game fish. We are not advised as to their success, but acknowledge a pleasant visit with Mr. Wood, who has all the earmarks of a genuine sportsman.

Stevens Point Gazette.—J. N. Welsby, manager of the Auto Sales Co., went to Chicago Saturday morning and on Monday underwent an operation at Wesley hospital in that city for the amputation of his right foot. Mr. Welsby, when fifteen years of age, broke his foot while at play and ever since has been lame. Of recent years the member has caused him more or less trouble and pain and it was finally deemed advisable to amputate. Reports from the hospital state that the operation was a success in every way and it is presumed that Mr. Welsby will be able to return home in a week or ten days.

Berlin Wis., Nov. 3.—T. H. Rumsey, vice-president of the First National bank of this city, is dead, and Frank Russell, president of the Russell Glove company, and G. A. Stuebe are seriously injured as the result of an overturning automobile four miles east of here. The party had been at Oshkosh to see Mr. Rumsey's son, of Duluth. When the automobile turned to the side of the road to pass a car, it ran into the ditch and overturned. Rumsey was a former railroad man. He leaves a son and widow.

Wautoma Argus.—Carl Schwesinske, who has been a resident of this city for about three years, was instantly killed Monday evening about dark, as he was crossing the railroad track a short distance south of the depot. Mr. Schwesinske was on his way to the pasture to milk his cows. He was wearing a coat and the railroad tracks just opposite his house. It was about dark Monday evening when he started out to cross the track and he must have gotten confused in some way and stepped into the tracks directly in front of the moving engine. The engine struck him and hurled him to one side. A big gash on the side of his forehead and on his cheek bone indicated that he had been hurled against a box car standing on another track. Death resulted instantly and the old gentleman probably never knew what struck him. Mr. Schwesinske was about seventy years old.

Merrill Herald.—Merrill has been hit for the last time for the past two years and something happened Saturday that makes it all the more famous. A score of 18 to 5 was run up against the Wausau Commercial College eleven.

The biggest score made in this state so far this year was 141, and it is generally thought that the biggest score ever made by any team, anywhere, was 174 to 0. Saturdays score sets both of these in the shade by a wide margin.

There was nothing much to the game, as far as the Merrill team was concerned. It was a walk away from start to finish. The scores would undoubtedly have been closer to the 250 mark if the players had stayed in their positions and played football all the time, but when the 100 mark had been reached, the balance of the game was a farce.

Harmon's Uncle Tom's Cabin will be at Daly's theatre Nov. 11th, producing the celebrated and highly authorized versions of Harriet Beecher Stow's great masterpiece. Watch for the parade.

COUNTY BOARD WILL TAKE A JOY RIDE

The County Highway commission, consisting of Dave Harney, of Marshfield, George W. Brown, of Plover, and Louis Schroeder, of this city, have been in session several days during the past week in company with Louis Amundson for the purpose of getting the road business closed up so as to make a report to the county board. The highway work in the county has been carried forward with considerable vigor during the past season, and considerable work has been disposed of in the way of new stretches of road in various parts of the county.

It is the intention of the committee to give the members of the county board a ride over the new trunk line between this city and Marshfield on Saturday of this week, providing the weather is favorable. The road between this city and Marshfield is now in the best shape it has ever been, and at this time of the year, if the weather is good, it is a most delightful trip, and it will also give the board a chance to see what has been done on the road and also what it is necessary to do to put the road in the condition that it should be.

The committee is strongly in favor of putting this trunk line in first class condition as soon as possible. The whole stretch has been graded and there are some patches of macadam on the way, but there are still some miles to be surfaced with stone before the road is completed and in the condition that a main road of this kind should be. When once this is done there is no question that there will be a great stimulus in the travel between the north and south ends of the county and that the road will be used more than any other thoroughfare in this section.

HAIR FALLING OUT?

One of the baldest men I ever knew inherited a large fortune made by his father in the manufacture and sale of a well known patent hair tonic. In addition to being bald and rich, this man was a well educated and thoroughly competent physician. Money, free access to barrels of patent hair tonic and to all the knowledge of medical science have failed to make two hairs grow on his head where one grew before. And that one instance tells all there is to be told about curing baldness once it is well established. It can't be done.

One might as well attempt to grow a new leg after amputation as to make hair grow out of destroyed follicles, which is the physicians name for the sacks or hair beds that enclose the roots and furnish nutriment to the hair.

And that suggests the singers by which barbers counteract the barber shop smell of bay rum, with hazel, and perfumed soap. Singing the ends of cut hairs is proposed by the barbers for the alleged purpose of sealing the ends of the cut hair and thus prevent the waste of the nutriment which is supposed (by him) to rise in the hair, like sap does in a tree.

Hairs are not comparable to trees either in the nature of their trunk or in their growth. Like fingernails and horses' hoofs they are grown in and pushed out of the beds or nests at their roots. Beyond the roots, hairs are no more living matter than are telegraph poles.

People who have thin skulls have a much greater tendency to baldness than have those with thick, movable skulls. The former variety does not furnish so much blood to nourish the hair roots. Such skulls are particularly prone to dandruff. Dandruff is a symptom of a disease called seborrhea, believed by most skin specialists to be a contagious disease which is spread by unclean hair brushes particularly of barber shop and women's hair-dressing parlors.

Whereas falling hair is held to be largely due to unclean scalp, the greatest preventive and hair tonic is scrupulous cleanliness. A splendid cleansing and antiseptic shampoo is furnished by a Nature of green soap. Massage and thorough brushing for several minutes each day will do a great deal to furnish nutriment and "condition" to stick hair roots.

Finally, don't treasure those falling hairs and don't be fearful about brushing or washing them out. They fall out anyway and if the scalp is in good condition and the hair sacks are not dead or nearly so, new hairs will take their place.

Maid of America Company.—With their pretty chorus, extraordinary comedians and competent people in roles of Maid of America, the attraction at Daly's Theatre on Tuesday, November 9, The Eastern Producing company, sending one of the liveliest musical comedies that has ever visited Grand Rapids. Dainty Babe LaPorte, the liveliest little Sotheby on tour can be depended on to keep your gentlemen's hearts in a flutter. Seats will be on sale at Daly's Drug Store Saturday.

Tailor Shop Sold.—R. F. Matthews has bought out the Grand Rapids Tailoring establishment on First Street and will move into the building and operate his business there. Mr. Matthews has been located on the second floor of the Wood County National bank building for some time past and it will make it considerably more handy to be located on the ground floor.

Merrill Herald.—Joe Cohen, owner of the Boston Store, and the energetic mayor of Grand Rapids, is in the city today on business. Mr. Cohen says being mayor has raised the taxes a bit, but now Grand Rapids is becoming his third term. Under his administration the city has laid a number of blocks of brick paving and more is promised. A great deal of money has also been spent in laying new sewers.

Ernest Woolver, who has been operating a saloon at Seneca Corners during the past year was among the pleasant callers at this office on Friday. Mr. Woolver has sold the place at Seneca Corners to A. Lamore, who comes from Marshfield, and Mr. Woolver has moved to that city to live. While at Seneca Corners Mr. Woolver fixed up the property considerably and always run a nice orderly place and had many friends out in that neighborhood who were sorry to see him leave.

Among those who attended the teachers meeting at Milwaukee last week were Prof. M. H. Jackson, Chas. W. Schwede, Miss Agnes Breene, Lillian McDermid, Miss Reynolds, Mildred Tarrant, Faye Warner and Miss Ellgeron of Nekosia.

NEW WRAPPING PAPER MACHINE NOW RUNNING

The new paper machine installed in the Consolidated mill for the manufacture of wrapping paper has been in operation during the past week and has been doing pretty good work considering all circumstances in the case. The operation of the machine up to the present and in its operation is much of an experiment, as when the work was started it was not known just what proportions the stock would be mixed in, nor what the results would be.

The object of installing the machine is to use up the return about the mill that cannot be incorporated into paper, and it looks now as if there would be no difficulty in doing this. The results using the waste about the mill in the paper are satisfactory and, the company is also buying waste paper about the city and using this in the wrapping paper.

The machine is apparently doing good work, and while it operates much slower than one of the great paper machines, it seems to handle the business in nice shape and will undoubtedly cause considerable saving.

FEDERATION WILL TALK ON SUFFRAGE

On Thursday, November 11th, a 11 o'clock meeting of the Grand Rapids Federation of Women's Clubs, this meeting of the Federation will be devoted to the matter of Women's Suffrage and in order to give the ladies a better understanding of the matter, it is the intention to have Mrs. Ben Hooper of Oshkosh here to address the ladies on the subject. Mrs. Hooper is chairman of the local suffrage association and is said to be a good talker on the subject, and has all the points well in hand.

The meeting will be held at the home of Mrs. J. P. Winter at 230 1/2 North Washington. The program for "Greetings," and the music for the occasion is under the supervision of Mrs. Frank Natchez. While matters in the past have not gone so well of late as the ladies had reason to expect, still they have not thought of giving up the campaign in Wisconsin. The human family, while different individually, as a whole are much alike, and when they really make up their mind they get it, that is, if they have the necessary staying qualities. While the women themselves are divided on the subject of suffrage, there is no doubt but what the time is coming when they will be allowed to vote the same as men, and nothing will be thought of the matter.

It has only been a few years since women in Wisconsin were allowed to vote on school matters, and still to-day nobody thinks it strange that they are allowed to vote on these subjects, nor does any one feel that the schools are going to the dogs on this account.

Most men with unbiased minds who have been assailed by the believers in Woman's Suffrage, and also the non believers, have come to the conclusion that the subject is one that the women themselves should be allowed to settle. That is, that the women should be compelled to vote yes or no on the subject, and that the majority should rule. If there are an overwhelming majority that want to vote, there would be no trouble in carrying the matter, while, if there are so many who do not want the ballot, as some of them claim, the proposition would be defeated without a struggle.

PRICES ON DRUGS STILL MAKING RAPID ADVANCES

Prices in the drug trade are still going upward by leaps and bounds and according to a local druggist the advances made at the beginning of the European war are almost nothing to those occurring from week to week this fall.

Bromides and salicylates are becoming very scarce, as they are nearly all manufactured in Germany, and when they left here two or three years ago and has since been located in Grand Rapids, came up the first of the week for a visit at his brother's home and among numerous friends in Wisconsin are just about to be returning from an extended trip to various parts of the country, having visited a sister at Pittsburg, Pa., and other sisters in Montana and at Woonsocket, S. D. He also spent several days with his brother, Joseph, at St. Paul. Altko Louie is past 68 years of age, he looks and feels at least twenty years younger.

Mail Carriers Request.—The rural mail carriers recommend at this time that their patrons secure a supply of stamps so it will not become necessary for them to put penalties in the mail boxes in the cold winter months to the disadvantage of the carrier. They further recommend that the horse stables be raked off the road, particularly off the hills, and that the roads be cut down. The carriers claim that small brush and weeds will do more to create snowdrifts than any ordinary fence will. A few hours spent on the roads at the end of the season will save the carriers during the winter.—Brown Co. Democrat.

Will Hunt at Boulder.—Among those who will go to make up the Nash bunch that will hunt near Boulder Junction this season are L. M. Nash, W. E. Nash, L. E. Nash, H. S. Boles, C. E. Boles, Frank Boles, W. H. Carey, W. J. Conway, Jack Carrigan and F. J. Wood. Mike Farrell will act as cook for the outfit. Some of them went up the first of the week to get the camp in readiness and others will go up today and tomorrow.

Have Organized Club.—A number of the sports at Marshfield have organized a club that city for the purpose of holding a series of boxing matches during the coming winter. They expect to have some good matches with the best talent to be found.

Advertised Mail.—Ladies: Healy, Mrs. Fred, Kelley, Mrs. Frank L., Sukky, Miss Polly, Gentlemen: Kaminski, Mr. Joe, Katzke, William, Myers, F. L., Quist, Mr. Axel P.

Robert Nash, P. M.

Good Team Work.—Co-operation is another word for team work. See the First National Bank ad.

LOGAL POST OFFICE DOES BIG BUSINESS

Should business keep up at the Grand Rapids Post office during the coming year? It has during the past year. The post office will be a first class office. The business during the month of October, just past, amounted to \$1225.82. The business for the corresponding month during 1914 was \$2,100.00, an increase this year of approximately thirty three and one-half per cent. It requires an annual business of \$10,000 to make a first class office, and by maintaining the October business by \$1,225.82, the post office is nearly there. There is no question that the coming month will more than equal this amount, unless all indications lead and something occurs not expected at the present time.

Some more statistics that will give some idea of the increase of business at the local post office are as follows: The receipts during the last quarter, which ended Sept. 30th, were \$7,791.24, while the receipts for the corresponding quarter during 1914 were \$5,569.68, or an increase of \$2,221.56.

The weight of the daily mail now averages 3,275 pounds, while for the same time in 1914 it averaged only 2,700 pounds. The number of parcels post packages handled between Oct. 1 and Oct. 31, 1914, was 6,872, and during 1913 the number during the same period was 5,621. The number received for mailing during the first 15 days of October was 1,191 and one week ago the number received during the same time was 86.

The local post office employs 7 full time clerks, the postmaster, then there are 7 city carriers and 8 rural carriers. Owing to the remarkable increase in the business during the past year, the post office is finding considerable difficulty in handling the business, as the government has made no provision for the extra work and it has to be handled by the same force as that of last year.

The total money handled and accounted for by the local post office for one year, including extra sales and money orders was \$202,388.63 and the total money order transactions amounted to \$22,506.

The Grand Office is the 22nd largest in the state and it is the only one of its size that has not a building of its own, while there are many smaller places that have federal buildings. From the above facts it would be apparent that our congressman has been a trifle negligent of our interests in this section, and that he could not properly insist on an appropriation for a federal building for this city.

Our local business men should want they can to increase the stamp sales of the local post office, as that is what counts with the powers at Washington. We are just as well have a first class office here as not it being only necessary to patronize the postoffice whenever it is possible to do so.

"COW DETECTIVES" ARE EMPLOYED BY FARMERS

Between 40 and 50 cow testing associations are aiding dairymen, living all parts of the state, to make dairymen more pleasant and more profitable. By means of the careful record kept by representatives of these co-operative organizations, the dairymen are able to rid their herds of "boarder" cows and to get their best milk and butter fat producers to yield them still better returns. Dairy production records of 29,000 dairy cows in Wisconsin are kept by testers, working under the general direction of the officers of the Wisconsin Dairymen's association. At the "roundup" of Badger Dairymen to be held in Hillsboro, December 1-3, reports of the past year's work and plans for the next twelve months will be made.

An Extended Trip.—Stevens Point Gazette.—Louis P. Wollenschlaeger, who for 33 years was employed as draftsman at the Krembs building store in this city, but who left here two or three years ago and has since been located in Grand Rapids, came up the first of the week for a visit at his brother's home and among numerous friends in Wisconsin are just about to be returning from an extended trip to various parts of the country, having visited a sister at Pittsburg, Pa., and other sisters in Montana and at Woonsocket, S. D. He also spent several days with his brother, Joseph, at St. Paul. Altko Louie is past 68 years of age, he looks and feels at least twenty years younger.

Mail Carriers Request.—The rural mail carriers recommend at this time that their patrons secure a supply of stamps so it will not become necessary for them to put penalties in the mail boxes in the cold winter months to the disadvantage of the carrier. They further recommend that the horse stables be raked off the road, particularly off the hills, and that the roads be cut down. The carriers claim that small brush and weeds will do more to create snowdrifts than any ordinary fence will. A few hours spent on the roads at the end of the season will save the carriers during the winter.—Brown Co. Democrat.

Will Hunt at Boulder.—Among those who will go to make up the Nash bunch that will hunt near Boulder Junction this season are L. M. Nash, W. E. Nash, L. E. Nash, H. S. Boles, C. E. Boles, Frank Boles, W. H. Carey, W. J. Conway, Jack Carrigan and F. J. Wood. Mike Farrell will act as cook for the outfit. Some of them went up the first of the week to get the camp in readiness and others will go up today and tomorrow.

Have Organized Club.—A number of the sports at Marshfield have organized a club that city for the purpose of holding a series of boxing matches during the coming winter. They expect to have some good matches with the best talent to be found.

SUFFRAGE DEFEATED IN THREE STATES

New York, Massachusetts and Pennsylvania Vote No.

DRYS ARE BEATEN IN OHIO

Returns Show Gov. Walsh of Bay State Defeated by McCall—Republican Victory in New York—New Constitution Defeated.

New York, Nov. 4.—Woman suffrage was defeated decisively in all three states where the question was an issue in Tuesday's elections. The results were in brief as follows:

New York—Majority against suffrage, 200,000. New York city's anti-suffrage majority was more than 62,000.

Massachusetts—The vote ran very nearly two to one against suffrage. With one precinct missing it stood at 12,114 against, 254,497, a defeat by 122,383 votes.

Pennsylvania—The opponents of equal suffrage were victorious by about 150,000 majority.

Will Not Give Up.
Dr. Anna Howard Shaw, president of the National Woman's association, issued this statement:

"The final count shows we have not won a single state, and at least have won a great victory in public opinion. We have lost nothing, for they have lost all the votes we have won. We are the only victors if confusion had not resulted from the vote on the constitution. I think we would have won. We shall start in again tomorrow the first thing. We are in this campaign for the war, we won't give up, and mere defeat will not stop us."

Miss Alice Hill Chittenden, president of the New York State Association Opposed to Woman Suffrage, gave this statement:

"We have said all along that we represent the majority of women, and now I wish you would say for me that the women have won. A significant fact is that the thousands of voters who did not go to the polls represent either opposed or indifferent voters. The vote for suffrage is the full strength for suffrage."

G. O. P. Wins Bay State.
Elections Tuesday furnished the politicians with few straws to indicate the direction of the political wind for 1916.

Massachusetts elected its first Republican governor since 1909, the Progressive vote practically disappearing. In Maryland, on the other hand, Harrington, a Democrat, was victorious.

In Kentucky both A. O. Stanley, Democrat, and E. P. Morrow, Republican, claim victory. The latest returns put Stanley in the lead by 10,000 votes. The contest was tangled up with the wet and dry issue.

In New York Tammany defeated the new constitution drafted by the convention over which Elihu Root presided. It has opened a question as to whether this may not eliminate Mr. Root from the lists of Republican candidates for the presidential nomination. Some political circles in the East declare the rejection of the constitution sounds the death knell of all future political preferences for Mr. Root.

New York Republicans gained two seats in congress, one formerly occupied by a Democrat, the other by a Progressive.

New Jersey, the president's home state, increased the Republican majority in the legislature by electing two state senators.

State-wide prohibition was defeated in Ohio by 70,000 majority. Cleveland elected a Republican mayor by 5,000 majority.

South Carolina and Mississippi went the same old way.

Tammany carried New York county by its candidates by pluralities ranging from 37,000 to 50,000. Judge Swann, the Tammany candidate for district attorney, was elected. Republican Chamberlain, by 37,000, and Smith, the Tammany candidate for sheriff, was elected by a larger plurality. Tammany has succeeded in electing a district attorney for the first time in 15 years.

The next board of aldermen will be Democratic by a majority of approximately 22. Several long-time Republican districts were the only ones where Tammany and its allies in the other boroughs.

The Republicans retain control of the state assembly by a vote of nearly two to one. The next assembly will stand: Republicans, 95; Democrats, 53; Progressives, 1; Socialists, 1.

One of the features of the result in this city was the election of a Socialist assemblyman in Brooklyn. He is A. L. S. L. and he was by close vote over J. F. Martyn, Republican.

In New York county the Smith-Swann sweep carried into office several Democratic assemblymen upon whose election the organization had not counted.

Hamilton Fish, Jr., a Progressive, with a Republican endorsement, in Putnam county, judging from the early returns, was the only one Progressive to be elected to the assembly.

Boston, Mass., Nov. 4.—Samuel W. McCall, Republican, has been elected governor, defeating Gov. David I. Walsh, Democrat, by 6,363 votes.

Beyond Kindness.
When men and women die, and are beyond all earthly troubles and cares, then the rule is: "Speak no evil of the dead." But is it not worse to speak evil of them while they are alive, while the evil word can wound or injure them? Why wait to be kind and merciful until it is no use whatever?

Valuable Metal.
Osmium is one of the most valuable metals. It is worth \$50 a pound.

His Abysmal Meanness.
"I cannot understand," confessed J. Fuller Gloom, the well-known pessimist, "why every young mother sends her baby to a hospital nursery because I did not care to kiss her infant until it had its face washed?"—Kansas City Star.

Telling Your Troubles.
Don't tell your troubles unless it is the only way to prevent another fellow from telling his.—Philadelphia Record.

SEVEN YANKEES HIT

STRAY MEXICAN BULLETS RAIN ON DOUGLAS, ARIZ., AS BATTLE RAGES.

GEN. FUNSTON IN COMMAND

Takes Command of U. S. Troops Across the Border From Agua Prieta Where General Villa is Attacking the Carranza Forces.

Douglas, Ariz., Nov. 4.—Rallying his shattered forces, General Villa returned the attack on Agua Prieta. The Villistas approached the Mexican town in two columns, from the east and the west sides.

General Funston, who arrived in the morning to take command of the United States troops, closed the American customs house and ordered all civilians and soldiers to leave localities swept by bullets in the first assault.

Harry Jones, private in Company C, Eleventh infantry, died of the wounds inflicted by a bullet from the Agua Prieta battle line. Jones was shot in the stomach as he stood guard over an army supply wagon several hundred yards from the boundary.

Nine persons, seven of them Americans, have been wounded by the rain of bullets into Douglas and on the trenches occupied by United States soldiers.

Significant action was taken by the American troops during the day. Forces in trenches along the border were heavily re-inforced and new trenches manned in anticipation of possible entrance of Americans into the fight.

The American troops moved back from the border, were ordered to pack baggage in the wagon train and each man was instructed to take individual rations, indicating a purpose to take drastic action in event of further firing upon American territory.

American army officers sent two warnings to General Calles following the wounding of two United States soldiers.

Bullets fell thickly on Seventh street, in Douglas, where Jones was wounded. The people of the neighborhood were panic-stricken. Women and children remained in their homes, with bullets pattering on the walls and roofs.

After several desperate night attacks on Agua Prieta, the Villistas withdrew to the eastward. General Calles' wire entanglements proved to be a barrier for the Villistas to penetrate.

Carranza officers in Agua Prieta declared that Villa left 400 dead and wounded on the battlefield.

Just too late a large force of Yaqui Indians, estimated at 2,000 men, joined the Villista army.

"The defeat of the amendment," said Mr. McBride, "is a victory for us. It means we will begin at once another state-wide fight to make Ohio dry."

The fact that the pro-saloon majority in the state was not a factor in the election was a great relief to the half from the constitution of Ohio is a greater victory for the drys than that of the vote in voting to retain the saloon in the state, according to F. Scott McBride, head of the Antisaloon League of Illinois.

A great part of the Ohio dry campaign was directed from Chicago. Not less than 100,000 letters were sent from the city to the state-wide vote there.

The vote for suffrage in Illinois would be overwhelmingly in their favor in a state-wide fight.

"The defeat of the amendment," said Mr. McBride, "is a victory for us. It means we will begin at once another state-wide fight to make Ohio dry."

MARKET REPORTS

U. S. WARNS BRITAIN MORGAN UNDER KNIFE

ENGLAND TOLD TO KEEP HANDS OFF AMERICAN TRADE.

Vigorous Protest Sent From Washington Is Expected to Reach London This Week.

Washington, Nov. 2.—Couched in more emphatic language than any yet employed in the American note to be presented to Great Britain this week protesting against violations of American maritime rights and demanding that further interference with our trade shall cease.

The United States declares: 1. That its sovereign rights have been invaded by the limitations, risks and liabilities imposed by Great Britain upon the ships of neutral powers.

2. That the procedure observed by Great Britain under the various orders in council is illegal.

3. That the British blockade, as described in the orders in council and applied thereto, is not binding because it is not effective.

4. That the blockade is ineffective in that it discriminates between the trade of neutral powers.

5. That the effect of British operations is to blockade neutral countries, which, of course, is in violation of international law.

6. That British practice subjects neutral ships proceeding to neutral ports to the same suspicion of guilt which attaches to neutral ships bound for ports of enemies of Great Britain.

7. That British practice results in the seizure of innocent goods exported by Germany through neutral territory to neutral states and exported by neutral states through neutral territory to Germany.

8. That British practice in interfering with trade between neutral countries is not only illegal but unfairly conducted.

9. That British practice imposes the burden of proof of innocence upon neutral shippers, whereas the burden of proof of guilt should rest upon the captor.

10. That the method observed by British cruisers in taking neutral ships into port for visit and search works hardship upon the neutral owners and shippers and is not in accordance with the requirements of international law.

11. That the contraband list as expanded from time to time by Great Britain is arbitrary and in violation of recognized practice.

12. That British interpretation and application of the doctrine of continuous voyage by the North during the Civil war.

Two Illinois Towns Go Wet
Seven Others Vote to Remain Dry—Only Part of State Holds Election.

Springfield, Ill., Nov. 4.—Two southern Illinois towns which were captured by the drys two years ago following the passage of the suffrage act, voted Tuesday into the wet column. Seven other dry towns where the issue was raised voted to continue without saloons. The two places where saloons will be restored are Percy, Randolph county, and Willsville, Perry county. Percy went wet by 38 votes, while Willsville tumbled off the dry column by a majority of 12.

The dry towns were Grand Chain, Union, Coatesville, Baldwin, 9; Thebes, 82; Coatesville, 215; Grand Chain, 40; Union, 68.

Willow Rods in Demand.
Because the European supply of willow rods has been largely cut off several American manufacturers of willow furniture and baskets have asked the department of agriculture for the addresses of persons in this country who have taken up willow growing.

For some years the department has distributed with a view to developing the production of high grade willow rods in the United States. The usual imports of willow came chiefly from England, Belgium, Holland, France and Germany, but these sources have been practically closed for several months.

One manufacturer reports that Japanese osiers are taking a market formerly supplied by Germany, at a slightly higher price. Finished willow baskets from Japan have come to where split bamboo was the only Japanese basketware on sale before the war. As a consequence of the shortage of imported osiers, it is said, the price of American willows has increased and growers here are meeting with a heavy demand for their products.

Willard to Fight in March.
New Orleans, Nov. 4.—Jesse Willard, world's heavyweight champion, signed a contract to defend his title in this city the first week in March against an opponent to be selected by the promoters by December 10 next.

Calla Cabinet "Incapable Machine."
London, England, Nov. 4.—Sir Edward Carson told the house of commons that in his opinion the cabinet was an organization and machine utterly incapable of carrying on the war under present conditions.

SUFFRAGE DEFEATED IN THREE STATES

New York, Massachusetts and
Pennsylvania Vote No.

DRYS ARE BEATEN IN OHIO

Returned Show Gov. Walsh of Day State
Defeated by McGuffey-Republican
Victory in New York-New
Constitution Defeated.

New York, Nov. 4.—Woman-suffrage
was defeated decisively in all three
states where the question was an issue
in Tuesday's elections. The results
were in brief as follows:

New York—Majority against anti-
suffrage, 200,000. New York city's anti-
suffrage majority was more than 250,000.

Massachusetts—The vote ran very
nearly two to one against suffrage.
With one precinct missing it stood:
For suffrage, 152,114; against, 294,497,
a defeat by 142,383 majority.

Pennsylvania—The opponents of
equal suffrage were victorious by
about 150,000 majority.

Will Not Give Up.
Dr. Anna (Howard) Shaw, president
of the National Woman's association,
issued this statement:

"If the final count shows we have
not won a single state, at least
we have won a great victory in polling
so many votes.

"We have not only lost nothing
but we have gained much. We have
shown that the thousands of voters
who did not go to the polls represent
either opposed or indifferent voters.
The vote for suffrage is the full
strength for suffrage."

Miss Alice Hill Chittenden, president
of the New York State Association
Opposed to Woman Suffrage, gave
this statement:

"We have said all along that we re-
present the majority of women, and
now we have said it in a way for me
that the women have won. A significant
fact is that the thousands of voters
who did not go to the polls represent
either opposed or indifferent voters.
The vote for suffrage is the full
strength for suffrage."

G. O. P. Wins Bay State.
Electoral returns furnished the
particulars with few straws to indi-
cate the direction of the political wind
for 1916.

Massachusetts elected its first Re-
publican governor since 1899, the Pro-
gressive vote practically disappearing.
In Maryland, on the other hand,
Thurston, a Democrat, was victori-
ous.

In Kentucky both A. O. Stanley,
Democrat, and E. P. Morrow, Republi-
can, claim victory. The latest re-
turns put Stanley in the lead by 10,000
votes. The contest was tangled up
with the wet and dry issue.

In New York Tammany defeated the
conservative coalition, drafted by the
conservative over which Elihu Root
presided. It had opened a question
as to whether this may not eliminate
Mr. Root from the lists of Republi-
can candidates for the presidential
nomination. Some political circles
in the East declare the rejection of the
conservative coalition the death knell of
the Tammany political preferences for
Mr. Root.

New York Republicans gained two
seats in Congress, one formerly occu-
pied by a Democrat, the other by a
Progressive.

New Jersey, the president's home
state, increased its Republican ma-
jority in the legislature by electing
two state senators.

State-wide prohibition was defeated
in Ohio by 70,000 majority. Cleveland
elected a Republican mayor by 5,000
majority.

South Carolina and Mississippi
went the same old way.

Tammany cut out New York county
and city candidates by pluralities rang-
ing from 37,000 to 50,000. Judge
Swann, the Tammany candidate for
district attorney, was elected over
Charles A. Perkins, the Republican
incumbent, by 37,000, and Smith, the
Tammany candidate for sheriff, was
elected by a plurality.

Tammany has succeeded in electing a dis-
tinct attorney for the first time in 15
years.

The next board of aldermen will be
Democratic by a majority of appar-
ently 22. Several long-time Republican
districts were carried by Tammany
and its allies in the other boroughs.

The Republicans retain control of
the state assembly by a vote of nearly
two to one. The next assembly will
stand: Republicans, 95; Democrats,
57; Progressives, 1; Socialists, 1.

One of the features of the result in
this city was the election of a Social-
ist assemblyman, Benjamin H. Ho. He
is A. I. Shiplock, and he won by a close
vote over J. Martyn, Republican.

In New York county the Smith-
Swann sweep carried into office sev-
eral Democratic assemblymen upon
whose election the organization had
not counted.

Hamilton Fish, Jr., a Progressive,
with a Republican endorsement, in
Cattaraugus county, judging from the early
returns, was the only Progressive to
be elected to the assembly.

Boston, Mass., Nov. 4.—Samuel W.
McCall, Republican, has been elected
governor, defeating Gov. David I.
Walsh, Democrat, by 6,553 votes.

Beyond Kindness.
When men and women die, and are
beyond all earthly troubles and crises,
then the rule is: "Speak no evil of
the dead." But is it not wiser to
speak evil of the dead than to speak
of the living? Why wait to be kind
and merciful until it is no use what-
ever?

Valuable Metal.
Osmium is one of the most valuable
metals. It is worth \$50 a pound.

His Abysmal Meanness.
"I cannot understand," confessed J.
Fuller Bloom, the well-known pesti-
cist, "why every young mother
should have me so utterly, more-
over, because I think to kiss her infant
until it has its face washed!"—Kan-
sas City Star.

Telling Your Troubles.
Don't tell your troubles unless it is
the only way to get them, the other
follow from telling his.—Philadelphia
Record.

Worms Used in Medicine.
The earthworm, or the common
field worm, was utilized by the
medical practitioners in Europe two
and three hundred years ago. The
worms were for internal administra-
tion, and sometimes made into an
ointment or embrocation for external
use.

Proof of Success.
The making of friends who are real
friends is the best token of a man's
success in life.—E. E. Hale.

Tied by Prejudices.
The confirmed prejudices of a
thoughtful life are as hard to change
as the confirmed habits of an innocent
life; and as some must trifle away
life, because they trifle away youth,
others must labor on in a state of
error, because they have wandered
there too long to find their way out.
—Hollingbroke.

Poetic Definition.
Language is a city to the building
of which every human being brought
a stone.—Emerson.

SEVEN YANKEES HIT

STRAY MEXICAN BULLETS RAIN
ON DOUGLAS, ARIZ., AS
BATTLE RAGES.

GEN. FUNSTON IN COMMAND

Takes Command of U. S. Troops
Across the Border From Agua Prieta
Where General Villa is Attacking
the Carranza Forces.

Douglas, Ariz., Nov. 4.—Rallying his
straggling forces, General Villa re-
sumed the attack on Agua Prieta.

The Villistas approached the Mexi-
can town in two columns, from the
east and the west sides.

General Funston, who arrived in the
morning to take command of the Amer-
ican troops, closed the American
customhouse and ordered all ci-
tizens to leave the town.

General Funston, who arrived in the

MARKET REPORTS

U. S. WARNS BRITAIN MORGAN UNDER KNIFE

ENGLAND TOLD TO KEEP HANDS
OFF AMERICAN TRADE.

Vigorous Protest Sent From Wash-
ington Is Expected to Reach Lon-
don This Week.

Washington, Nov. 2.—Couched in
more emphatic language than any yet
employed in the American note to the
British government, the protest was
presented to Great Britain this week
protesting against the American
blockade of neutral ports and de-
manding that further interference with
our trade shall cease.

The United States declares:
1. That its sovereign rights have
been invaded by the limitations of
the blockade imposed by Great Brit-
ain and the British government.
2. That the blockade is in viola-
tion of the rights of neutral powers.
3. That the British blockade, as de-
scribed in the orders in the council
and applied thereto, is not binding
because it is not effective.

4. That the blockade is ineffective
in that it discriminates between the
trade of neutral nations.
5. That the effect of British opera-
tions is to blockade neutral countries,
which, of course, is in violation of
international law.

6. That British practice subjects
neutral ships proceeding to neutral
ports to the same suspicion of guilt
which attaches to neutral ships
bound for ports of enemies of Great
Britain.

7. That British practice results in
the seizure of innocent goods ex-
ported by Germany through neutral ter-
ritory to neutral states through neutral
territory to Germany.

8. That British practice in inter-
ference with trade between neutral coun-
tries is not only illegal but unfairly
conducted.

9. That British practice imposes the
burden of proof of innocence upon
neutral ships, whereas the burden
of proof of guilt rests upon the
captor.

10. That the method observed by
British cruisers in taking neutral
ships into port for visit and search
works hardship upon the neutral
owners and shippers and is not in ac-
cordance with the requirements of in-
ternational law.

11. That the contraband list as ex-
panded from time to time by Great
Britain is arbitrary and in violation
of recognized practice.

12. That British interpretation and
application of the doctrine of contin-
uance of voyage is not in accordance
with the interpretation and application
of the doctrine by the North during the
Civil war.

13. That the British practice in
seizing neutral ships and cargoes
without adequate cause is in viola-
tion of international law.

14. That the British practice in
seizing neutral ships and cargoes
without adequate cause is in viola-
tion of international law.

15. That the British practice in
seizing neutral ships and cargoes
without adequate cause is in viola-
tion of international law.

16. That the British practice in
seizing neutral ships and cargoes
without adequate cause is in viola-
tion of international law.

17. That the British practice in
seizing neutral ships and cargoes
without adequate cause is in viola-
tion of international law.

18. That the British practice in
seizing neutral ships and cargoes
without adequate cause is in viola-
tion of international law.

19. That the British practice in
seizing neutral ships and cargoes
without adequate cause is in viola-
tion of international law.

20. That the British practice in
seizing neutral ships and cargoes
without adequate cause is in viola-
tion of international law.

21. That the British practice in
seizing neutral ships and cargoes
without adequate cause is in viola-
tion of international law.

22. That the British practice in
seizing neutral ships and cargoes
without adequate cause is in viola-
tion of international law.

23. That the British practice in
seizing neutral ships and cargoes
without adequate cause is in viola-
tion of international law.

24. That the British practice in
seizing neutral ships and cargoes
without adequate cause is in viola-
tion of international law.

25. That the British practice in
seizing neutral ships and cargoes
without adequate cause is in viola-
tion of international law.

26. That the British practice in
seizing neutral ships and cargoes
without adequate cause is in viola-
tion of international law.

27. That the British practice in
seizing neutral ships and cargoes
without adequate cause is in viola-
tion of international law.

28. That the British practice in
seizing neutral ships and cargoes
without adequate cause is in viola-
tion of international law.

29. That the British practice in
seizing neutral ships and cargoes
without adequate cause is in viola-
tion of international law.

30. That the British practice in
seizing neutral ships and cargoes
without adequate cause is in viola-
tion of international law.

31. That the British practice in
seizing neutral ships and cargoes
without adequate cause is in viola-
tion of international law.

32. That the British practice in
seizing neutral ships and cargoes
without adequate cause is in viola-
tion of international law.

33. That the British practice in
seizing neutral ships and cargoes
without adequate cause is in viola-
tion of international law.

34. That the British practice in
seizing neutral ships and cargoes
without adequate cause is in viola-
tion of international law.

35. That the British practice in
seizing neutral ships and cargoes
without adequate cause is in viola-
tion of international law.

36. That the British practice in
seizing neutral ships and cargoes
without adequate cause is in viola-
tion of international law.

37. That the British practice in
seizing neutral ships and cargoes
without adequate cause is in viola-
tion of international law.

BRITAIN IS WARNED

PREMIER ASQUITH TELLS COM-
MONS THAT COUNTRY FACES
FINANCIAL DIFFICULTIES.

SAYS TURK CAMPAIGN FAILS

England's Prime Minister in a Pre-
pared Statement in the House De-
clares That the Allies Will Win—
Many Secrets Are Bared.

London, Nov. 4.—Appearing in the
house of commons for the first time
since his illness, Premier Asquith
made his long expected address on
the war before a throng that jammed
all the galleries. He defended the
allies' conduct of the war and an-
nounced that Sir Frederick Edward
Smith, solicitor general, had been ap-
pointed attorney general to succeed
Sir Edward Carson, who also made a
speech.

That the financial situation of Great
Britain was serious and the nation
was prepared to make for greater
sacrifices than it had yet experienced.
That there was full agreement be-
tween Great Britain and France to
maintain the independence of Serbia
and not let her "become the prey of
the sinister and nefarious combina-
tion of Germany, Austria and Bul-
garia."

That he was as confident as ever
the allies were going to carry their
righteous cause to a triumphant
issue; and he was not going to shift
the burden from his shoulders until
he was unable to bear it.

That Field Marshal Sir John French,
commander of the British forces on
the Franco-Belgian front, was now in
command of nearly 1,000,000 men.
That the total casualties in France
and Flanders amounted to 377,000.

That he accepted his full share of
responsibility for the first attack on
the Dardanelles, which resulted in fail-
ure, with the loss of several capital
ships.

That the Venizelos plan of Greece
asked France and Great Brit-
ain, September 21, for 150,000 men to
aid Serbia with the express under-
standing that Greece would mobilize.
But the Greek king repudiated the
plan.

That he himself was determined the
allies should win the war, and "sooner
than win it I would not hesitate to
propose some form of compulsory en-
listment."

Slavs Capture Bulgarian Town Fol-
lowing Bombardment by Fleet—
Teutons Take Kragevatz.

London, Nov. 3.—A Bucharest dis-
patch to the Times on Monday says
it is reported in official naval quar-
ters that the Russians have forced a land-
ing at Varna on the Black sea coast of
Bulgaria.

A Russian transport fleet was sighted
off of Balak. Destroyers escorted the
fleet. Approaching the Bulgarian
port of Varna, the transports dropped
anchors and the transports began bom-
barding the port.

The heaviest blow dealt to the Ser-
bians since the beginning of the Teu-
tonic and Bulgarian invasion was suf-
fered in the loss of their great arsenal
located in Kragevatz. The source of
practically all arms and munitions
manufactured in Serbia.

WISCONSIN HEALTH WORK TO BE SHOWN IN MOVIES

"The Power of the Penny" a Two Act Photoplay, Has Anti-Tuberculosis Fight as Its Theme.

With many well known Wisconsin people as their actors and with Wisconsin sanatoria for tuberculosis, open air schools and other institutions furnishing the locations in which many of the scenes are enacted, a two act photoplay telling of the state fight against tuberculosis is now being staged for the Wisconsin and Tuberculosis Association. It is called, "The Power of the Penny." It is being produced for the Association by the Eschsch Company of Chicago from a scenario written by Mrs. Louise F. Brand, one of the staff members of the Association and for several years dramatic editor of the Milwaukee Sentinel.

For over a week the producing company has been taking pictures in and around Milwaukee, causing much excitement as the two big touring cars containing director Richard Foster Baker, Manager Charles F. Stark, Cameraman W. F. Kuehl, electricians, assistants and the principal actors in the photoplay dashed from place to place. Nearly a mile of film has already been taken and several scenes yet remain to be photographed.

"The Power of the Penny," is designed to show in picture form the educational work that is being done by the Wisconsin Anti-Tuberculosis Association and its relation to the various health agencies, such as the sanatoria, the open air schools, and the visiting nurses. With the exception of the principals in the little romantic story which is used to weave the institutional work together, all parts in the play are taken by the people who actually live in real life. All the examinations and tests are made by well known physicians, and the work of the public health nurses is shown by those actually engaged in it, and the greatest care has been taken to have every detail accurate. It is the first time that a photoplay of this kind has ever been produced and the venture is attracting a great deal of attention in other states as well as this one.

Among the institutions whose work will be pictured are the tuberculosis sanatoria of Brown, Outagamie, Manitowish, Winnebago, Racine, Eau Claire, Kenosha and Milwaukee counties, the open air schools at Green Bay, Milwaukee, Oshkosh, Kenosha and Racine, and the State Sanatorium at Waupun.

It is expected that "The Power of the Penny" will be released for production the latter part of November.

FARMERS WARNED TO SAVE ALL SEED CORN

The seed corn situation in Wisconsin at the present time is exceedingly serious.

For unless every effort is made now to save for seed corn the corn which is sufficiently matured there is grave danger that much of the years work in breeding strains adapted to Wisconsin's conditions will be undone.

Reports from various sections of the state show that many are of the opinion that there is little or no seed corn this year which is worth saving for seed. If this were the case it would mean that some wonderfully productive early ripening strains that have been developed in Wisconsin would be lost and that the growers of the state would have to begin again where they did 12 or 14 years ago.

By the aid of the Agricultural Experiment Station, growers in various sections of the state have been acclimated to their districts and to their various types of soil varieties which produce better and ripen better in the respective sections than any other strains that could be obtained. A summer of unprecedented weather, with an unusual amount of rainfall and low temperatures, has kept even the best adapted varieties from maturing as in former years.

Happily, however, according to agronomists at the College of Agriculture, a sufficient amount of various varieties have matured and with some extra effort may be gathered, cured, and stored ready for next spring's planting.

They are now advising farmers who have corn which has reached the denting or the latter part of the dough stage to select either from stock or standing corn ears which are fully dented and ripened.

It is very important, as indicated by a series of experiments conducted a few years ago by Commissioner of Agriculture C. H. Norgard, that seed corn be secured as early as possible and thoroughly dried immediately after being husked. Selected ears may be dried temporarily in well ventilated sheds where the ears are hung separately and are protected from frosts. A much better way, the Station agronomists say, is to hang the ears, properly separated in a regular seed drying room provided with roof ventilation and some artificial heat.

"The importance of separating each ear from its neighbor and keeping them properly ventilated cannot be emphasized too strongly, and if in fact the seed corn is to be provided the most perfect conditions are supplied. Hanging the seed around the kitchen stove where there is but a small amount to be cured is as good a scheme as any."

"Farmers who have supplies of corn sufficiently matured for seed will find it highly profitable to cure well their supplies. Seed corn prices are sure to be high next spring."

Luther for State Institutes.
Mr. E. L. Luther of Rhinelander, has been chosen superintendent of Wisconsin Farmers' Institutes. He succeeds C. P. Norgard, who recently resigned to accept the commission of Agriculture. The board of regents made a good selection in Mr. Norgard as proved by his work during the year he was in the harness. We believe that Mr. Luther is a young man of clean habits and a hustler.

After carefully considering the advantages of the plan the regents have decided to have the Institutes continued throughout the year rather than only past. It is also planned to have all during the winter months as the earlier the work made as demonstration as possible.

By emphasizing the field and general demonstration features it will be possible to offset a like amount of the federal funds made available for agricultural extension work in Wisconsin without asking the state to make further appropriations. Provision in the Smith-Lever bill by Congress requires that each state appropriate an amount practically equal to that set aside by the federal government for agricultural extension work. The appointment of Mr. Luther, who heretofore has had charge of the agricultural representatives, will permit of the closest correlation of both lines of work avoiding all duplication and reducing the cost of supervision.

Mr. Luther is familiar with farming conditions in various sections of the state, having spent much of his earlier life in developing a farm under pioneer conditions, and several years in southern portions of the state—Wisconsin Farmer.

PLEASANT HILL

P. H. Likes and Dan McConnell were Marshfield visitors last Friday. They went in via the Pittsville Record auto.

Geo. Andrews was taken with an attack of appendicitis and a doctor was summoned Saturday.

Frank Fox had a shining bee on his machine shed Wednesday.

The Farmers Equity shipped a carload of cattle Saturday.

The fall on the Stroppe bridge was put in last week.

Mrs. Will Bennett, nee Tillie Stroppe, and baby, of New York, arrived home Thursday for a visit with her parents, Mr. and Mrs. Will Stroppe.

The Sunday school committee on the Christmas program met Saturday evening.

A social and dance was held at the school house in district No. 2 Saturday evening.

The Ladies Aid met with Mrs. Likes Thursday afternoon.

A new fence was put up around the church Monday.

E. A. Likes and Mrs. J. A. Eners, of Fenton, Ill., arrived on Thursday for a visit with their brother, P. H. Likes and family.

Walter and Allen Leigh of Greer, Lake returned to their homes Saturday after a week's visit with their uncle, F. A. Fox.

F. A. Fox and wife, Miss Leota Peters were Vesper visitors on Saturday.

Will Stroppe returned Sunday afternoon from near Babcock, where he had been assisting Louie Johnson on a state bridge job.

Alfred Alms left Thursday for San Francisco where he will visit the exposition.

Harry Bunde has his new barn painted.

Scott and Schmugge are doing the brick work on Will Hahn's house. He will have a fine house when completed.

McKinley and Luckman are doing the tiling on the Galt farm.

The ditch for the tile dug with a 14 horse catpillar gas tractor.

Ed. Leigh left for Morrison, Ill., for a few days visit.

Some of our farmers are hauling gravel for cement work.

Walter Erdman has returned home after working this summer at Vedum.

The smaller a man's mind is the longer it takes him to make it up.

The littlest of the hater mankind is generally a close student of his own nature.

The late husband catches the early morning lecture.

An expression says that spinsters are uncalled for packages.

EAST NEW ROME
Thunder storm visited this area last Wednesday evening. Summer unusual for this time of the year. The wind was from the north and Mable Holtz was caught at J. S. Irwin's one evening the week. Lawrence Irwin had the misfortune of losing a horse one day the past week. A number of friends gathered at the A. Anderson home in honor of Carl Anderson's birthday.

SARATOGA
Mrs. Henry Koppman and two sons visited Mr. and Mrs. E. Tracy from Sunday until Wednesday. Mr. and Mrs. L. R. Hamann, Harriet Tracy and Mr. S. Abbott autoed to Placid in Saturday and visited with relatives over Sunday. Mr. W. L. Ross and daughter Ethel visited relatives in Placid during Saturday and Sunday. William Peterson and wife of Grand Rapids visited in Grand Rapids Friday and Saturday and took dinner in this burg with relatives over Sunday. Miss Gladys Ross visited the Anderson High School one day the past week. A number of friends gathered at the A. Anderson home in honor of Carl Anderson's birthday.

WISCONSIN HEALTH WORK TO BE SHOWN IN MOVIES
"The Power of the Penny," a Two Act Photoplay, Has Anti-Tuberculosis Fight as Its Theme.
With many well known Wisconsin people as their actors and with Wisconsin sanatoria for tuberculosis, which furnish the locations in which many of the scenes are enacted, a two act photoplay telling of the state fight against tuberculosis is now being staged for the Wisconsin Anti-Tuberculosis Association. It is called, "The Power of the Penny." It is being produced for the Association by the Essanay company of Chicago from a scenario written by Mrs. Louise P. Brand, one of the staff members of the Association and for several years dramatic editor of the Milwaukee Sentinel.
For over a week the producing company has been taking pictures in and around Milwaukee, causing much excitement as the two big touring cars containing director Richard Foster, cameraman W. F. Kuehl, electricians, assistants and the principal actors in the photoplay dashed every where. Nearly a mile of film has already been taken and several scenes yet remain to be photographed.
"The Power of the Penny" is designed to show in picture form the educational work that is being done by the Wisconsin Anti-Tuberculosis Association and its relation to the various health agencies, such as the sanatoria, the open air schools, and the visiting nurses. With the exception of the dramatic plot in the little of the film which is used to weave the institutional work together, all parts in the play are taken by the people who actually fill them in real life. All the examining and tests are made by well known physicians, and the work of the public health nurses is shown by those actually engaged in it, and the greatest care has been taken to have every detail accurate. It is the first time that a photoplay of this kind has ever been produced and the venture is attracting a great deal of attention in other states as well as this one.
Among the institutions which are shown in the picture are the tuberculosis sanatoria of Brown, Outagamie, Manitowish, Winnebago, Racine, Eau Claire, Kenosha and Milwaukee counties, the open air schools at Green Bay, Milwaukee, Oshkosh, Kenosha and Racine, and the State Sanatorium at Waupun.
It is expected that "The Power of the Penny" will be released for production the latter part of November.

FARMERS WARNED TO SAVE ALL SEED CORN
The seed corn situation in Wisconsin at the present time is exceedingly serious.
For unless every effort is made now to save for seed only the corn which is sufficiently matured there is a grave danger that much of the year's work in breeding strains adapted to Wisconsin's conditions will be undone.
Reports from various sections of the state show that many are of the opinion that there is little or no corn this year which is worth saving for seed. If this were the case it would mean that some wonderfully productive early ripening strains that have been developed in Wisconsin would be lost and that the growers of the state would have to begin again where they did 12 or 14 years ago.
By the aid of the Agricultural Experiment Station, growers in various sections of the state have selected the best of the year's crop and are growing it in small plots to select the best for seed. It is very important, as indicated by a series of experiments conducted a few years ago by Commissioner of Agriculture C. D. Norgard, that seed corn be secured as early as possible and thoroughly dried immediately after being husked. Selected ears may be dried temporarily in well ventilated sheds where the ears are hung separately and are protected from frost. A much better way, is to hang the ears properly separated in a regular seed drying room provided with good ventilation and some artificial heat.
"The importance of separating each ear from its neighbor and keeping the corn properly ventilated cannot be emphasized too strongly, and if in addition, artificial heat can be provided the most perfect conditions are supplied. Hanging the seed corn in the kitchen stove where there is but a small amount to be cured is as good a scheme as any.
Farmers who have supplies of corn sufficiently matured for seed will find it highly profitable to save their supplies. Seed corn prices are sure to be high next spring."

Luther for State Institutes.
Mr. E. L. Luther of Rhineland, has been chosen superintendent of Wisconsin Farmers' Institutes. He succeeds C. P. Norgard, who recently resigned to accept the commission of Agriculture. The board of regents made a good selection in Mr. Norgard as proved by his work during the year he was in the harness. We believe that Mr. Luther is a young man of clean habits and a business man.

THE BOOKACENT BORE
The young people surprised Mr. Paul Mueller on his twenty-second birthday. The evening was spent in playing games and dancing. Supper was served and all departed for their homes wishing Paul many happy returns of the day.
Mr. Edwin Ohm returned home from Milwaukee where he has been employed during the summer.

PLEASANT HILL
P. H. Likes and Dan McConnell were Marshfield visitors last Friday. They went in via the Pittsville Record auto.
Geo. Andros was taken with an attack of appendicitis and a doctor was summoned Saturday.
Fred Fox had a shingling bee on his machine shed Wednesday.
The Farmers Equity shipped a carload of cattle Saturday.
The fill on the Stroppe bridge was put in last week.
Mrs. Will Bennett, nee Tillie Stroppe, and baby, of New York, arrived home Thursday for a visit with her parents, Mr. and Mrs. Will Stroppe.
The Saint Joseph school committee on the Christmas program met Saturday evening.
A social and dance was held at the school house in district No. 2 Saturday evening.
The Ladies Aid met with Mrs. Like Tuesday afternoon.
A new fence was put up around the church Monday.
E. A. Likes and Mrs. J. A. Eners, of Penton, Ill., arrived on Thursday for a visit with their brother, P. H. Likes and family.
Walter and Allen Leigh of Greer, Lake returned to their homes Saturday after a week's visit with their uncle, F. A. Fox.
Mrs. F. A. Fox and wife, Miss Leota Peters were Vesper visitors on Saturday.
Will Stroppe returned Sunday afternoon from near Babcock, where he had been assisting Louis Johnson on a stubble job.
Fred Alms left Thursday for San Francisco where he will visit the exposition.
Harry Baade has his new barn painted.
Scott and Schmugge are doing the brick work on Will Hahn's house. He will have a fine house when completed.
McKinley and Luckman are doing the tiling on the Galt Co. building.
The individual that hates mankind is generally a close student of his own nature.
The late husband catches the early morning lecture.
An experient says that spinsters are unequalled for packages.

PLEASANT HILL
Herman Koch and wife of Grand Rapids visited at the home of her parents, Mr. and Mrs. Fred Saeger. They drove out to the farm on Saturday and on Sunday Herman and Wilbur went hunting.
The Bowinski boys are doing considerable hunting and trapping in the neighborhood. When you have not seen the hunter, most of our people think "Well, I guess that Tom."
Edith, the eldest daughter of Chas. Saeger left Saturday to spend the winter with her aunt at Uxbridge.
The attendance at the Union Sunday school seems to be too small for any justification when we consider the wonderfully pleasant Sundays we are having.
We saw a flock of geese last night flying north and this morning we saw blue birds and robins. Wonder if Phoebe thinks its March.
Some potatoes still undug, some rye unplanted and some rye already "rotted" by the awful sand storms of the past few days. The farmers of the Tribune are not to be blamed for some good by advising them to grow a crop of weeds if unable to grow any other crop. A few heavy winds will carry the best kind of the ground is uncovered and late planting of rye in bare fields of new plowing is almost sure to be disappointing in crop return besides the risk of losing the field to the heavy fall winds.
We prefer to see our rye above ground by the middle of September and have never had a satisfactory crop with late planting due chiefly to the uprooting or burying by heavy winds. If farmers must plant rye late in the season it is better to plant it and not bury it all weeds and stubble as the wind will have less power on the field.
K. P. Kintson informs us that he will this week occupy his new residence.
Frank Gallagher sold a fine fresh milk cow to Jake Whitrock and delivered the cow on Saturday.
Joe Nemesick was seen in the big store on Saturday. He seemed to be following his nose and pipe right to point and we make the guess his new barn and silo are to have new coats.
John Kniprath thresher, shredder and wood-cutter, was smilingly present in our community last week but from the tracks he left he must have lost himself on the old Albert Koch farm.
When we were in town Saturday we saw John Akey (and we don't blame him for being achey) riding along with a bear and the bear was running in the tin wagon. We thought of the "Preacher and the Bear" and with him prayed, as that bear passed our rig while running the car "Oh Lord, if you can't help me, for goodness sake don't let him help dar'bar."
Olet Andren purchased Ed Larson's horse and we are told that Mr. Larson is planning to return to Chicago for the winter.
The Plainfield road between Lundberg's Gallagher's has in several places been top dressed, greatly to the improvement of the road as it mitigates the sandiest spots in that stretch, which was quite a poor piece of road.

BOSSERT BROTHERS
WOOD AND COAL YARDS

"If we must lose our valuables," said Mrs. Ingersoll, "it's nice to have them taken by so gentlemanly a burglar."

Handy Andy not long after this was captured by a neat stratagem which was perfected by the real Inspector Haynes and after serving a part of a long term died in prison.

Hog sheds need not be expensive, but they should be dry, tight enough to exclude rains and snows, and also capable of being well ventilated in summer when the weather is hot and shade is needed.

Disinfect all troughs at least once a week. Don't let them become foul.

It never pays to feed lice. Keep your pigs clean and free from pests and they will grow faster.

Growth.

"Whenever I have done anything for which I want my wife to forgive me I begin by handing her a nice little check, telling her she may use the money in any way she pleases."

"I use to find that method effective but it isn't any more."

"How do you manage it now?"

"By giving her a nice big check."

Council Chambers, Nov. 4, 1915
The council met in regular session, Mayor Coker presiding.
Present: Aldermen Smith, Weaver, Gault, Goughan, Holmstrom, Gault, Plinke, L. Kussner, Goughan, Whitlock, Jackson, Benoit and Jeffrey.
The reading of the minutes of the last meeting was dispensed with and the minutes approved.
The petition for sewer and water on Chase street was reported on favorably by the sewer and water committee and on motion and by a unanimous vote of the Council, the Clerk calling the roll, the report of the said committee was accepted and adopted and the work ordered done.
The petition for a street light at the corner of Fourth Ave. and Hale Street was denied.
The petition for a street light at the corner of 7th Street and Ave. was denied.
The following reports of the Board of Public Works were each separately accepted, adopted and ratified by a unanimous vote of the Council.
The undersigned Board of Public Works hereby reports to the Council that during the season of 1915 for both water and oil was \$201.50. That sprinkling was done of 21st Ave. North, 2nd Street, Second Ave. North, Third Ave. North and South Oak Street, 5th Street, 2nd Street, Drake Street, Witter Street, First Street, Grand Ave., First Street North, Second Street North, and Third Street North, and that the cost of sprinkling with water was found to be 5 cents per lineal foot sprinkled and the cost of sprinkling with oil for one application was found to be 3 cents per lineal foot sprinkled. The cost of the oil for two applications 5 cents per lineal foot on each side of the street. Therefore, we, the Board of Public Works, recommend that the above charges be made and placed upon the tax roll by the Clerk against the property abutting on the streets sprinkled.
J. A. Colver, P. H. Jackson, Chris Gotschalk, J. J. Jeffrey, Herman Plinke.
The Board of Public Works met pursuant to notice published in the official paper on the 28th day of October, 1915 for the purpose of hearing objections to the putting in of sewer and water in 15th Ave. S. a distance of about one block, and there was no one appearing to object.
The Board of Public Works met pursuant to notice published in the official paper on the 28th day of October, 1915 for the purpose of hearing objections to the putting in of sewer and water in 15th Ave. S. and there were no objections.
The Board of Public Works met on the 28th day of October, 1915, in regular and adjourned session on Grand Ave. and the Clerk ordered to pay the balance due on said pavement according to the Engineer's estimate.
J. A. Colver, P. H. Jackson, Chris Gotschalk, J. J. Jeffrey and Herman Plinke.
The resignation of W. H. Schmidt as a member of the Board of the Council, J. H. Weiland was nominated and elected by a unanimous vote of the Council to fill the unexpired term of Mr. Schmidt, resigned.
The resignation of Mr. Carl Mueller as an alderman of the Sixth Ward was accepted by a unanimous vote of the Council.
The resignation of Mr. Edgar Kruger as alderman of the Sixth Ward was accepted by a unanimous vote of the Council.
Moved and Seconded that the following Resolution be adopted:
RESOLVED, That Edward Wheelan be and he is notified to remove his stall and shed now located on the sidewalk on the easterly side of 1st and Seventh Street in the City of Grand Rapids being adjacent to the premises owned by L. A. Seaver (7) of Block Five (9), Subdivision of the Southeast Quarter of the Southeast Quarter of Section Nineteen (17), Township Twenty-two (22), North of Range Six (6) West of the 10th Meridian, that the same is an encroachment on said street and that a copy of this resolution be served by the Chief of Police on said parties and that if they fail to so remove the same within twenty (20) days after personal service of a copy of this resolution that the said City Attorney be and he is authorized to proceed to cause an action on action in the name of the City of Grand Rapids for the removal of said encroachment.
Resolutions adopted by unanimous vote of the Council.
The petition of the Park Commissioners to lay out and construct a park at the north end of Mr. W. J. Enge's lot in the Eighth ward was referred to the Finance Committee.
Complaint having been made to the Council in the matter of sidewalk in and about the East Side Hotel as L. A. Seaver (7) in front of property in Block 5 McCombs addition, said matter was on motion and by a unanimous vote of the Council referred to the Sidewalk Committee with instructions to see that a sidewalk was constructed in said location.
WHEELER'S Sidewalk Committee has heretofore contracted with the Wisconsin Cement Co. for the construction of sidewalks along the following property to wit: Part Lot 1 described in volume 34, Deeds of 21st Wood County Records. Part Lot 6 described in vol. 5 Deeds of 21st, of 21st Wood County Records. In the sum of \$28.10 and the same not having been paid the City Clerk is hereby instructed to spread the said tax on the tax roll against the above described property.
The Bills for the month of the Electric & Water Commission were on motion and by a unanimous vote of the Council ratified.
The following bills were allowed by a unanimous vote of the Council, the Clerk calling the roll:

Mrs. A. E. Gotschalk was appointed on the Library Board to fill the vacancy caused by the resignation of Mrs. Geo. Haubrecht and the same ratified by a unanimous vote of the Council.
W. E. Wheelan appointed to succeed himself as a member of the Electric and Water Commission for a term of three years, and said appointment was ratified by a unanimous vote of the Council.
The Board of Public Works was instructed by a unanimous vote of the Council, the Clerk calling the roll, to place a suitable railing on the Randolph road on the North line of the Quarter line ditch west of the C. M. & St. P. Ry.
On motion and by a unanimous vote of the Council, the Clerk calling the roll, to place a suitable railing on the Randolph road on the North line of the Quarter line ditch west of the C. M. & St. P. Ry.
To the Honorable Mayor and Common Council of the City of Grand Rapids, Gentlemen—I herewith submit the report of my office for the month of October, Oct. 6 Balance to Bank.....72.00 Oct. 12 Rec'd Anderson & Deedie, Cigarette license.....5.00

Crack! Bang! Boom! Roar! Hear the guns on the creek shore. There's Fred and Shunney and Voss and Ole, four dogs, Leo and Emil making Cotton ball war. The hardware wagon and ponies too, a cartload of shells and guns old and new arrived at 8:30 the dogs made a yell, the boys grabbed their guns and then there was — The molasses went jumping, the boys are all humming, the guns they are dumping their loads in this air. The oak trees are plentiful, the jack pines pretensions, the molasses vealitions they all are still there. The leaves are all drying, the forest trees sighing, the rabbit scent dying and Buns in his hair. Now when Molly holes up and you haven't ground pub and the spade has been passed up you just leave him there. There is a partridge a dragoon in the wild duck humming, but evening is coming and night's in the air. So the boys came a running, they've had fun a gunning, a whole day of sunning, so what should they care? Mrs. Hoffpinger, whose husband met an accidental death two weeks ago, has disposed of her effects and leaves this week for Oshkosh, her home. She has the sympathy of the entire community.
John McGirr sold cattle the past week loading the same at Kellner. Chas. Seeger and family spent Sunday afternoon and evening at the Kirschbaum home.
We understand Ed Larson has disposed of his crop and expects to return to Chicago for the winter. Olaf Andren bought his horse.
We saw a large flock of geese on Friday but they were too high for the guns.
A very light shower Thursday and Saturday nights and no frost for three days.
James Hastings and wife of Kellner, were Sunday visitors at the Scriba's.
The story goes that a big Swede, Swan Swanson, rushed into the undertakers and exclaimed, "Yah Mister Undertaker, I been want to know 'bout does har polar bear. The Undertaker explained, "A polar bear is a very large white bear living very far north, it has a big heavy thick coat and crawls in a hole and sleeps six months in two winter. "Waal," said Swan, "Ole Larson has die yesterday and fellows say, 'Swan you get soon.' Ole Larson here last week. I had to go way up north sleep six month, I bark say other guy han get that yeb." Boys ask Nord how he would like to take Pete and go way up north and be polar bear.
W. J. Mann of Waukegan was a Sunday visitor here last week.
Mrs. Warner Van Natta and baby, Gay, have returned home from a visit of several weeks with the former's mother at Hudson.
Mrs. Geo. Hauser and baby are here on a visit with relatives at Northshore.
Cora Lewis spent the week end at her home here.
The Adult Bible Class held its monthly social at the O. Dingleiden home Friday evening. A good crowd was on hand. After the meeting an impromptu program was put on and light refreshments served.
John Rebolts is still under the care of Dr. Moffatt.
Mrs. Matthews of Marshfield spent Saturday with relatives here.
Mr. and Mrs. J. T. Holland are in Pond du Lac visiting relatives.
The Ladies Aid of the Presbyterian church met Wednesday with Mrs. Guter at Bethel. The ladies will give their third bazaar December 10th.
A. J. Cowell, Mrs. C. W. Bisset and Miss Cowell motored out from the Rapids Friday evening and attended the Bible class meeting.
Mrs. C. E. Edwards who has been on the sick list is improving at this writing.
The many friends of Grandpa Hilton will be glad to learn that he is recovering from his recent illness.
Mr. and Mrs. Edwards of Beloit and Mrs. Watson Turner of Vesper are guests at the C. E. Edwards home.
Edna Van Natta spent Saturday at Grand Rapids.
Mr. and Mrs. O. Dingleiden and family spent Sunday at the Cowell home in Grand Rapids.
Mrs. Van Natta returned home last week from Minneapolis where she had visited for several weeks with her son, Dr. Arthur Van Natta.
John Whittingham is attending the meeting of the County Board this week.
Fred Strauss made a business trip to the southern part of the state last week.
Mrs. Arthur Moll spent a few days of last week at the home of her parents, Mr. and Mrs. John Abel, near your city.
Some of Mr. and Mrs. Clifton's neighbors gave them a surprise party and a farewell which was enjoyed by all present.
Mr. John Domach who has been very sick the past week is some better at this writing. Dr. Pomalville is the attending physician.
Mr. David Lutz, Jr., spent Sunday at the John Walter home.
Mr. and Mrs. Chas. Voight are entertaining relatives from Shiocton this week.
Mr. and Mrs. John Walter and daughters Tilla and Ida, spent Sunday evening at the Frank Keeney home.
Mr. and Mrs. Ernest Kruger and little daughter Ellen spent Sunday with the latter's parents, Mr. and Mrs. Chas. Voight.
Our pathmaster, Mr. Jadaek, had a crew of men with teams working on the road the past week. Every little bit added to a little bit makes just a little more.
Mr. Walter Fors and sister Miss Ruth spent Sunday with friends in Saratoga.
Mr. George Endress is working at the Biron mill.
Wm. Peters and O. J. Leu are attending the annual session of the County Board which convened Tuesday afternoon.
Peter Wirtz, Jr., is visiting his sister in Racine.
Mrs. A. Komatz has been visiting with her daughters in Grand Rapids. The cranberry men are about thrashing here and so most of our young people are home again.

ROAD STATISTICS BY THE AMERICAN HIGHWAY ASS'N.

The American Highway Association is an organization of Americans banded together for the purpose of improving roads of this country. The organization is supported by voluntary donations, and it numbers among its members some of the most prominent business and financiers of the United States. Following are some of the statistics compiled by the organization:
The United States last year 2,249,000 miles of public roads only 10 percent of which are classed as "Improved roads." Last year the expenditures on account of road construction, including the estimated value of convict labor made by states, counties, townships and districts aggregated about \$235,000,000. Ten years ago the expenditures on this account amounted to approximately \$75,000,000 and the difference between these two sums shows that there has been a great advance in the demand for improved public highways. But with 90 per cent of the roads in this country over which people travel and do business, unimproved, it is clear that so far the surface has hardly been scratched. In Germany Europe, which covers less territory than the single American state of Texas, there are 36,000 miles of state road and in Prussia alone the annual expenditure on public roads amounts to \$35,000,000. In England and Wales, less than one fourth the size of this country, there are 150,000 miles of public roads, of which 77,820 miles are what are called "main roads" and 72,082 are included under the designation "other than main roads." Five years ago the total expenditures in England and Wales expended on these roads, not including loans which amounted to \$7,915,964, \$32,488,000. In Florida, according to the latest available information there are 1,752 miles of what are called "improved roads." However obvious comparisons may be, they are very useful at times to show how far behind the rest of the civilized world the United States are in taking care of the most important economic problem with which they are confronted, the state of their roads. Of cost and materials, of construction and maintenance, of country life and country roads, of marketing facilities and practical economies that can be secured only by the building of good roads there is a wealth of information and suggestion that will be given in these articles so that the people may understand fully the great purpose of the American Highway Association.

Are You Educated?

A professor of the University of Chicago has evolved a series of test questions for the educated which, he avows are the best evidences of good education. If you can answer "yes" to all the questions, you are truly educated, the professor says. - Here are the questions, there is a wealth of information and suggestion that will be given in these articles so that the people may understand fully the great purpose of the American Highway Association.
Has education given you sympathy with all the good causes and made you espouse them?
Has it made you public spirited?
Has it made you a brother to the weak?
Have you learned how to make friends and keep them?
Do you know what it is to be a friend yourself?
Can you look an honest man or pure woman in the eye?
Do you see anything to love in a little child?
Will a lonely dog follow you in the street?
Can you be high-minded and happy in the meanest drudgeries of life?
Do you think that waiting dishes and tooting corn is just as compatible with high thinking as piano playing or golf?
Are you good for anything yourself?
Can you be happy alone?
Can you look out into the world and see anything but dollars and cents?
Can you look into a mud puddle by the wayside and see a clean sky?
Can you see anything in the puddle but mud?
If a man loses his temper he usually finds it too late.
Lots of people actually believe that their troubles are interesting to others.
An air of abstraction isn't breezy enough to fan a spark of genius into flame.

A Medical Book Free

By Dr. N. A. Goddard

Modern Methods of treating Chronic Diseases without Operation, has just come from the pen of Dr. Goddard the Milwaukee Specialist and is one of the most interesting as well as instructive little books the doctor has ever written.

If you are a sufferer from Appendicitis, Rupture, Gall Stones, Colic, Gout or Chronic diseases of a private nature, you should avail yourself of this offer to send you this valuable little book free simply for the asking. A postal will bring it to you, in a plain wrapper. Many so-called surgical diseases, have been proven to be curable by medical treatment, more safely, more easily and cheaply by modern medical methods than was believed possible a few years ago.

After you have read this little book you can consult Dr. Goddard on his monthly visits to Grand Rapids, free of charge and have the satisfaction of knowing that you have secured the expert opinion of a reputable specialist in these matters. If you have been advised to submit to an operation, surely do not fail to consult him before undergoing such an operation. His advice may save you many weeks of suffering, loss of time and expense; possibly your life. Dr. Goddard will be at the Witter Hotel all day Tuesday, Nov. 23rd, and he makes no charges for a friendly visit. Hours, 9 a. m. to 7:30 p. m.

A Salaried Man

looking about for a way to increase his earnings, hit upon the plan of putting \$25 in a Savings Account every month. At the end of five years he found his salary had raised three times, he had saved and banked \$1620 with the interest the bank paid him, and he had continued to live well and comfortably meantime. With a Savings Account here, perhaps you could do as well.
